

# **JINALI TECHNO SALES AND SERVICE**

**Exporter and Supplier of Road & Building Construction Equipment.**

## **CEMENT BINDER SPREADER**

### **1、 Function**

Mainly for roads cement spraying cold recycling can also be used for a variety of sub grade stabilized soil spreading adhesive Spreading object : Cement、lime powder Fly Coal ash .....Etc.

### **2、 Features**

1. Loading spout has a dedicated, can also be feeding from the manhole;
2. Automatic Control The value of spreading can't change with the change of truck speed
3. Use dust bag No environmental pollution
4. Using bag mask to avoid spreading dust in the process ;

5. Feed screw, dosing screw, spreading roller can control the speed, the amount of spreading is accurate.
6. Spreading process could operate by the driver (one person)
7. Powder Solis and Powder Tank all equipped with warning system to warning the operator if there is any increase or decrease about the amount.
8. Display operation parameters, and can be saved
9. High level and low level alert: voice and light alert
- 10, feeding mouth: we design standard and manual feeding mouth for fast connecting purpose
11. Big diameter and durable discharging screw shaft and repair pot, imported load sensitive hydraulic system , pulse jet dust collector, no pollution to environment.
12. Optional car-mounted weighting system , and APP interface remote reviewing working

### 3、 The main performance parameters :

Name	Parameters
Bin Capacity	18CBM
Engine	CUMMINS 140
Feeding pipe diameter	DN100
Wheelbase (mm)	5050
Maximum spreading width (mm)	2480
Spreading tank volume (m3)	16-18
Spreading volume(kg/m2)	4-60kg/ m2
Dimensions : (mm)	9800x2500x3450
Tare weight(kgs)	14500

## **Configuration in details of Cement spreader**

<b>No.</b>	<b>Name</b>	<b>Manufacturer</b>	<b>Remark</b>
1	BIN SET	18CBM	1
2	Hydraulic pump	REXROTH	1
3	High speed controller	Poclian	1
4	Solenoid valve	NINGBO	1
5	Measure motor	ETON/160CC/R	1
6	Screw feeding motor	100t/h	1
7	Controller	SEIMENS	1
8	Valve	Hanzu	1
9	Conveyor device	JIANGSU	1
10	Engine	140HP	1

Exporter and Supplier of Road & Building Construction Equipment.

Model	SX5255GPZ6T484C
Driven type	6×4
Model	Cement loading Truck Chassis
Chassis Mass	
Complete kerb mass(kg)	9,800
GVW(kg)	33,000
Performance	
Max.speed(km/h)	75
Vehicle Dimensions	
Max.length	9,425
Max.width	2,490
Max.height	3,400
Wheel base(mm)	4,775+1,400
Engine	
Make	CUMMINS
Type	ISME385 30
Rated Output (kw/HP)	283/385
Torque(N.m/rpm)	1,835/1,200
